

Spondylosis

Spondylosis

Deg. changes in the intervertebral space

Etiology: disc degeneration

> height loss, osteophytes, canal stenosis

C, L, T spine

pain, mobility changes,

> stature height

Spondylarthrosis

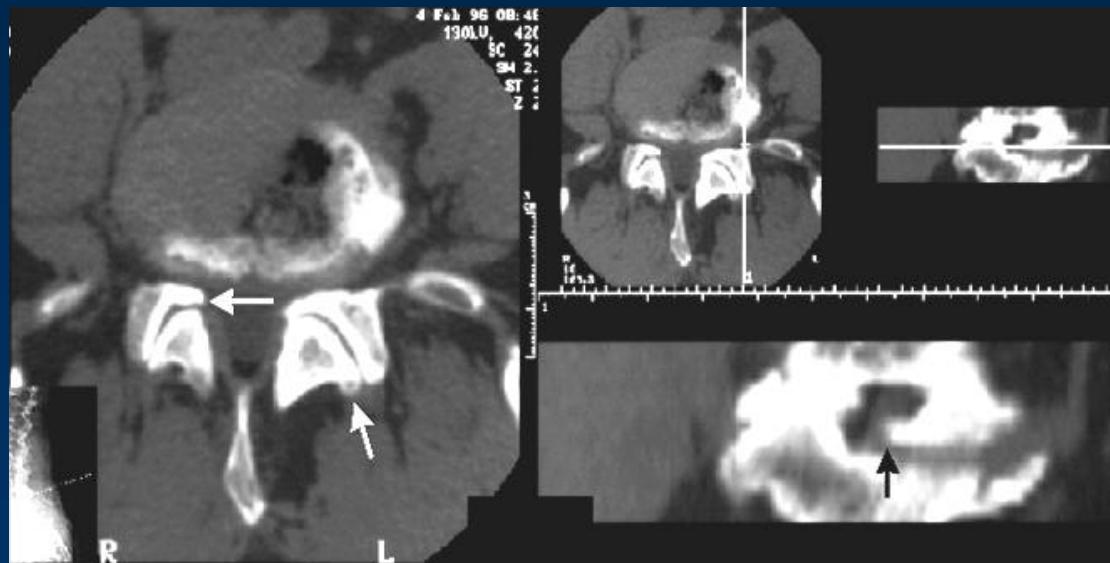

Deg. changes in the intervertebral joints

Eti: disc degeneration

osteophytes, canal stenosis

C, L, T spine

pain, > ROM

Spondylosis, spondylarthrosis

Therapy:

Fysiotherapy, regimen options, NSAID

Intervertebral fusion

Spondylosis, spondylarthrosis

Therapy:

Spinal arthroplasty

86 individual concepts of lumbar disc prosthesis

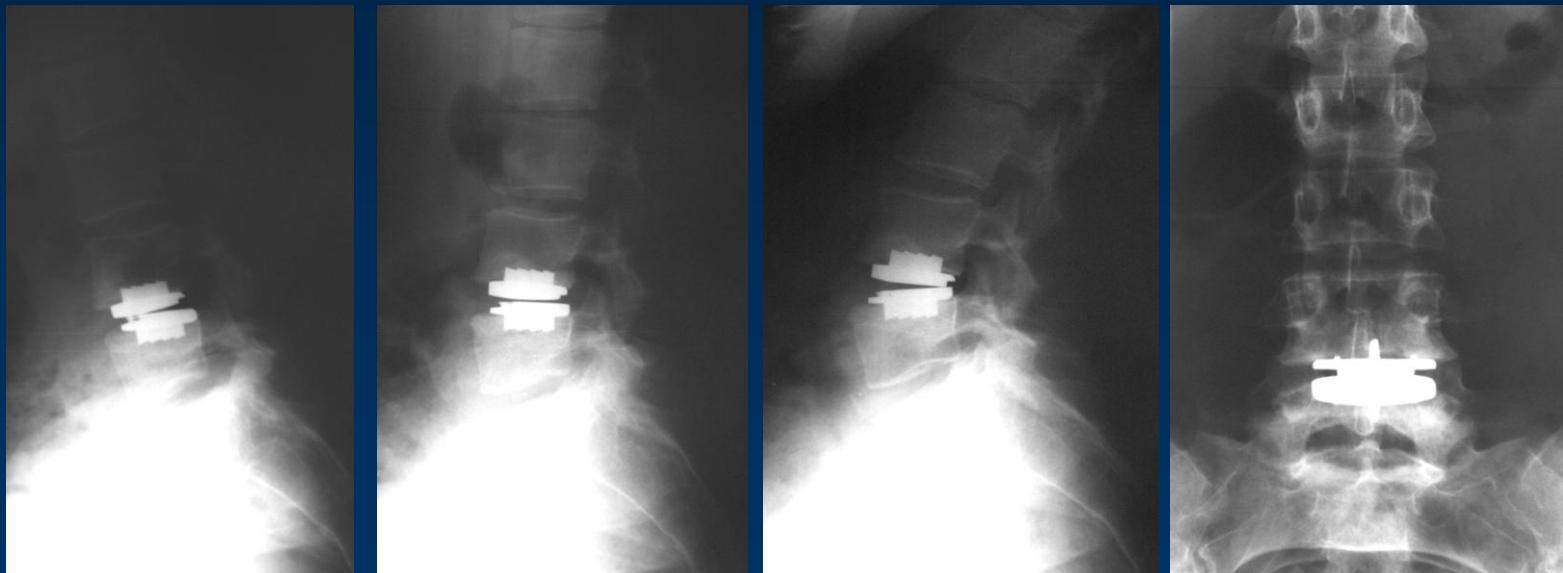

8 concepts of cervical devices

Spondylosis, spondylarthrosis

Therapy:

Spinal arthroplasty

Spondylosis, spondylarthrosis

Therapy:

Spinal arthroplasty

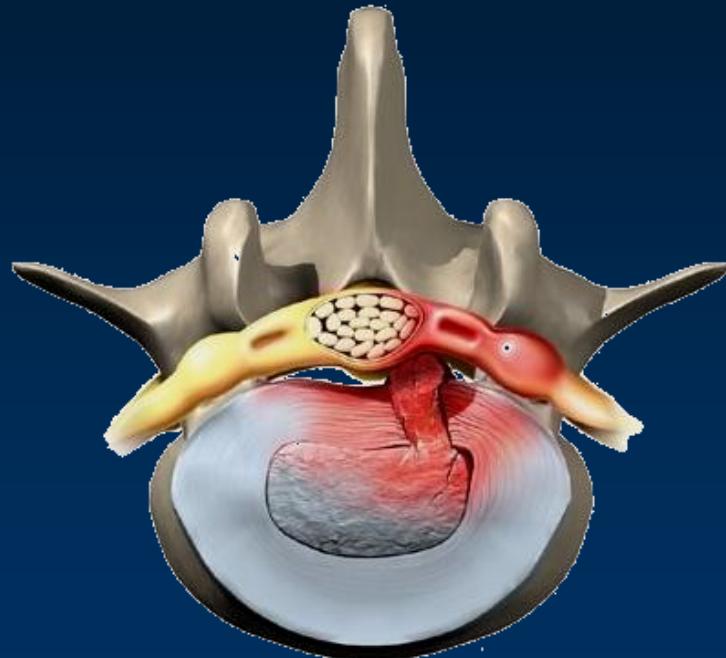

Disc herniation

Etiology: deg. changes in annulus fibrosus

bulging, herniation

L4/5, L5/S1, C4/5,

Disc herniation

Etiology: degenerative changes in annulus fibrosus
bulging, herniation, sequestration

L4/5, L5/S1, C4/5,

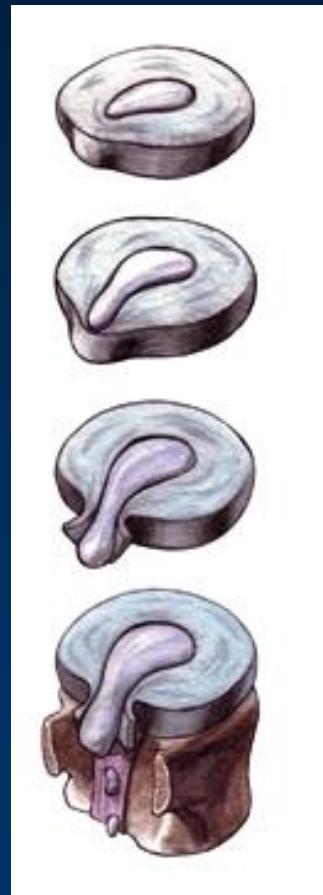

Disc herniation

Etiology: degenerative changes in annulus fibrosus

bulging, herniation, sequestration

L4/5, L5/S1, C4/5,

Lateral

Foraminal

Dorsal
(medial)

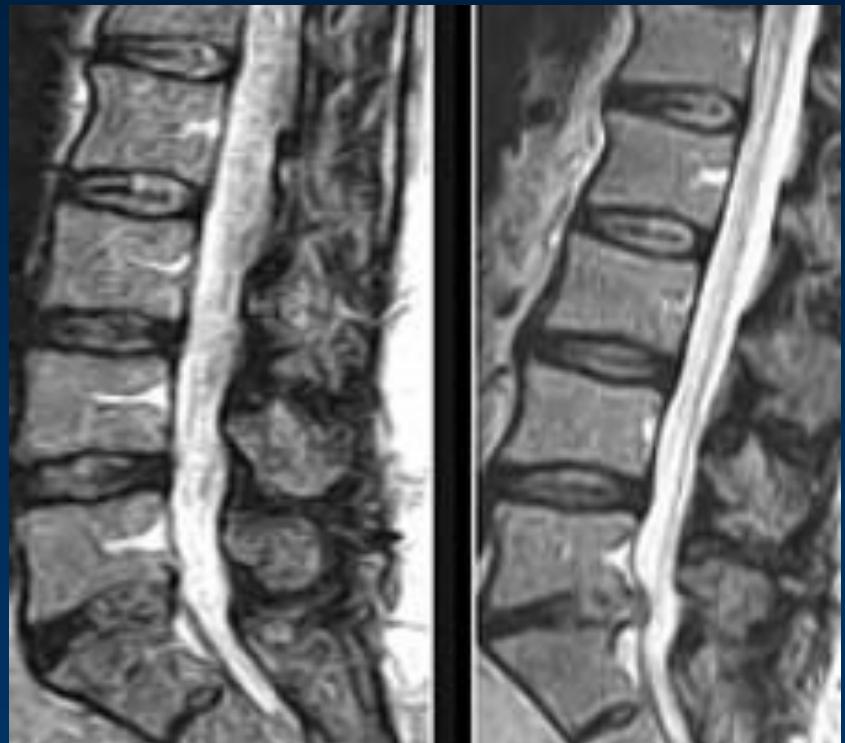

Disc herniation

Etiology: degenerative changes in annulus fibrosus

bulging, herniation, sequestration

L4/5, L5/S1, C4/5,

PMG, MR, (CT)

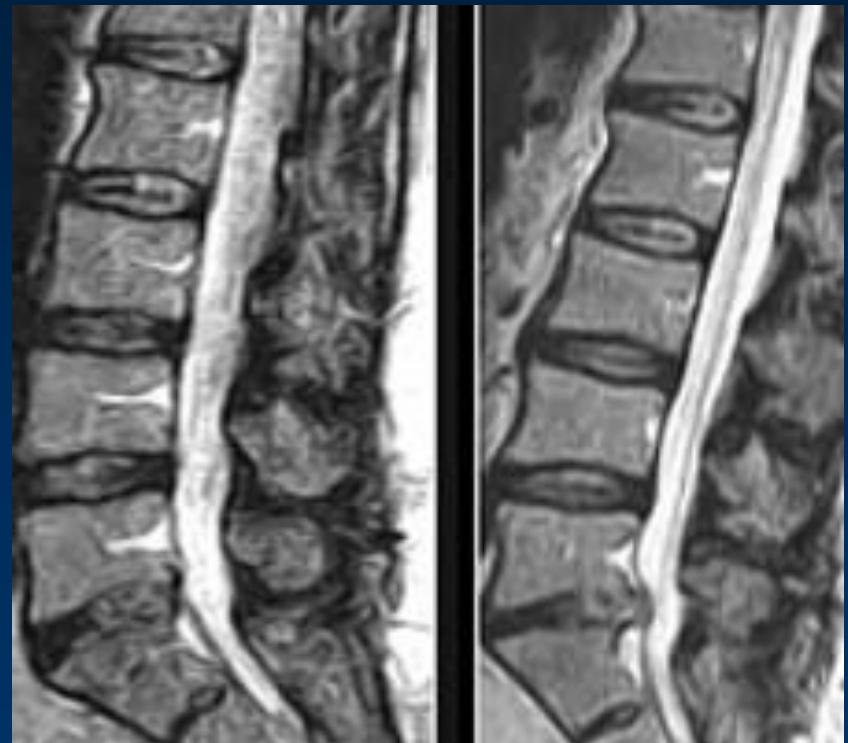

Disc herniation

Therapy:

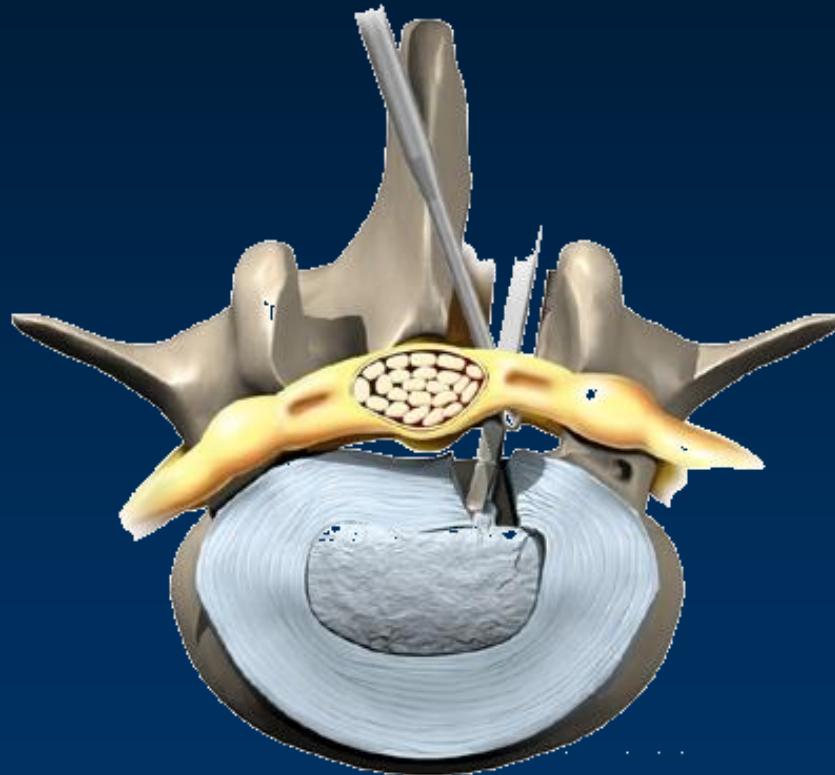

bed rest, medicaments, NSAID, fysio (80-90%)

OP: radicular sympt.
cauda eq. syndrome

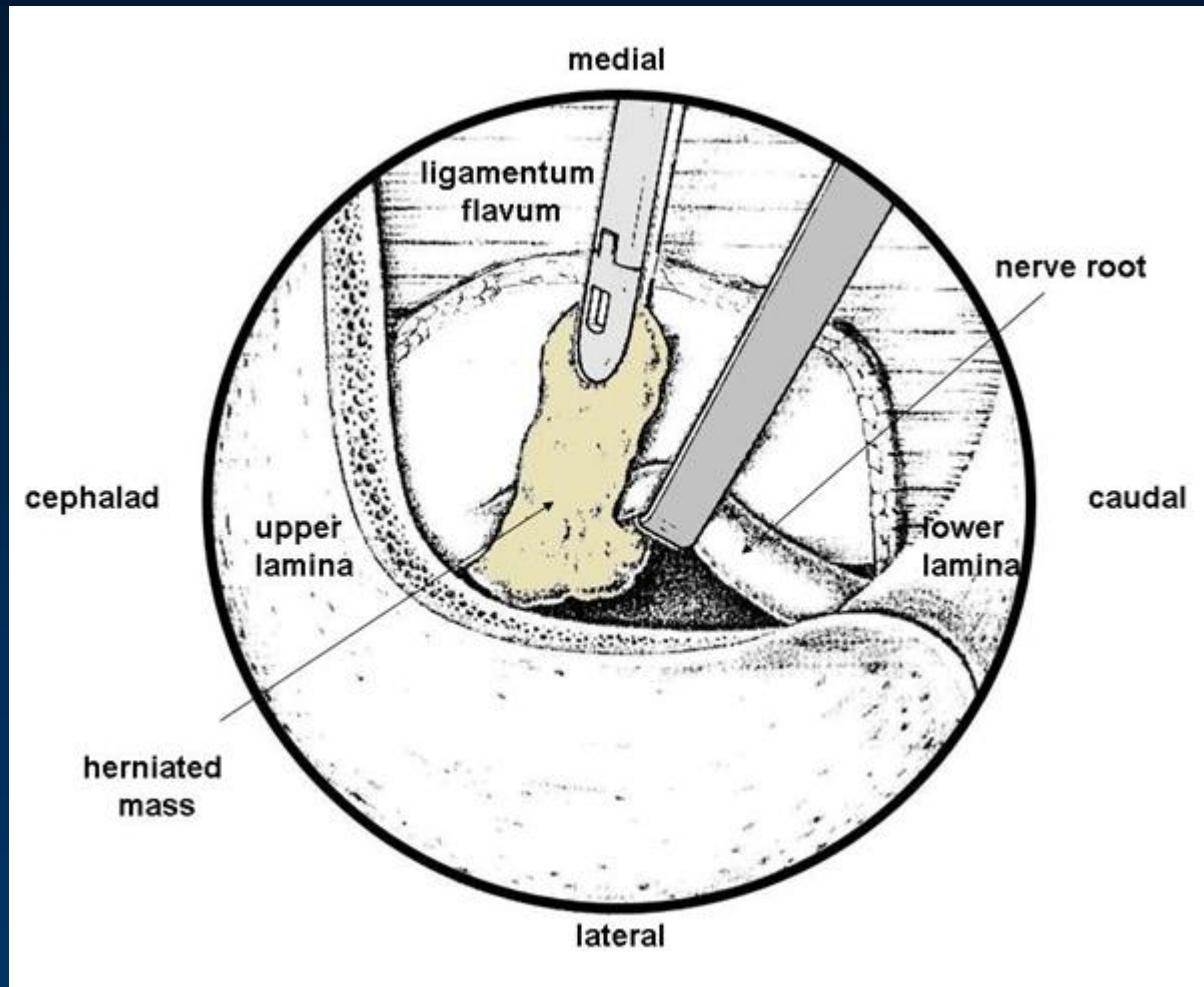

Disc herniation

Therapy:

Disc herniation

Therapy:

Scoliosis (5)

M. Scheuermann (17)

Spondylosis, spondylathrosis (27)

Trauma C1 - 2

subaxial C

T - L

}

(51)

Specific + non-specific inflammation (24, 26)
